Re-: Heating contract St Mary's Church Burnham on Crouch

Dear Sir,

I write on behalf of the PCC to express our thanks for the way in which your firm and work force carried out the work for which you were contracted at St Mary's Church.

We were impressed with the way the work was carried out with the minimum disruption to the everyday life of the church, how every day the necessary debris from the work was cleared and tidied and the whole area cleaned and left in a state ready for whatever function the Church required. At the completion of the work, which was within schedule, it was impossible to detect where floors had been lifted and re-laid and new wiring fitted, the whole building was left in a clean and tidy state as it was before the work commenced.

We congratulate you on the professionalism of your work force and wish to express our thanks in particular to Peter and his team for their excellent work and conduct in our Church.

The system is working beyond our hopes and we have been congratulated by the congregation and visitors on how pleasant, warm and welcoming the Church now is when they attend for worship.

We would have no hesitation in recommending your firm as excellent to anybody that asked.

Thank you.

Yours sincerely-: DRJ Boyton MBE
