STEBBING OFFICE 30<sup>th</sup> June 2010

Dear Peter,

**Installation of Lighting Scheme and Theatre Effects – Jan to June 2010**

On behalf of the Church and usurping my role as the 'Link Man', I should be most grateful if you would convey our sincere Thanks to all members of the team for the most professional and courteous way in which you dealt with the removal of the old lighting system and trunking and for the installation of the new lighting effects.

The end result is indeed most stunning; our church has been made even more beautiful by the new lighting effects designed by Tim Venn and expertly installed by your Team.

Can you especially convey our Thanks to Chris Attelsey, for 'staying very late' last Thursday; Chris Samuel, Jason Peters and to Les Coates for their good humour and professionalism. It was a pleasure to 'do business' with you all.

On a very personal note, I was delighted to get up the scaffolding and attack the cobwebs – a memorable occasion. Just don't let my Wife know.

Best Wishes to everyone at Lodge & Sons,

Yours sincerely,

Neil Hamper,  
PCC 'Link Man'
